

UK Experience with PPPs

Ed Farquharson

July 2010

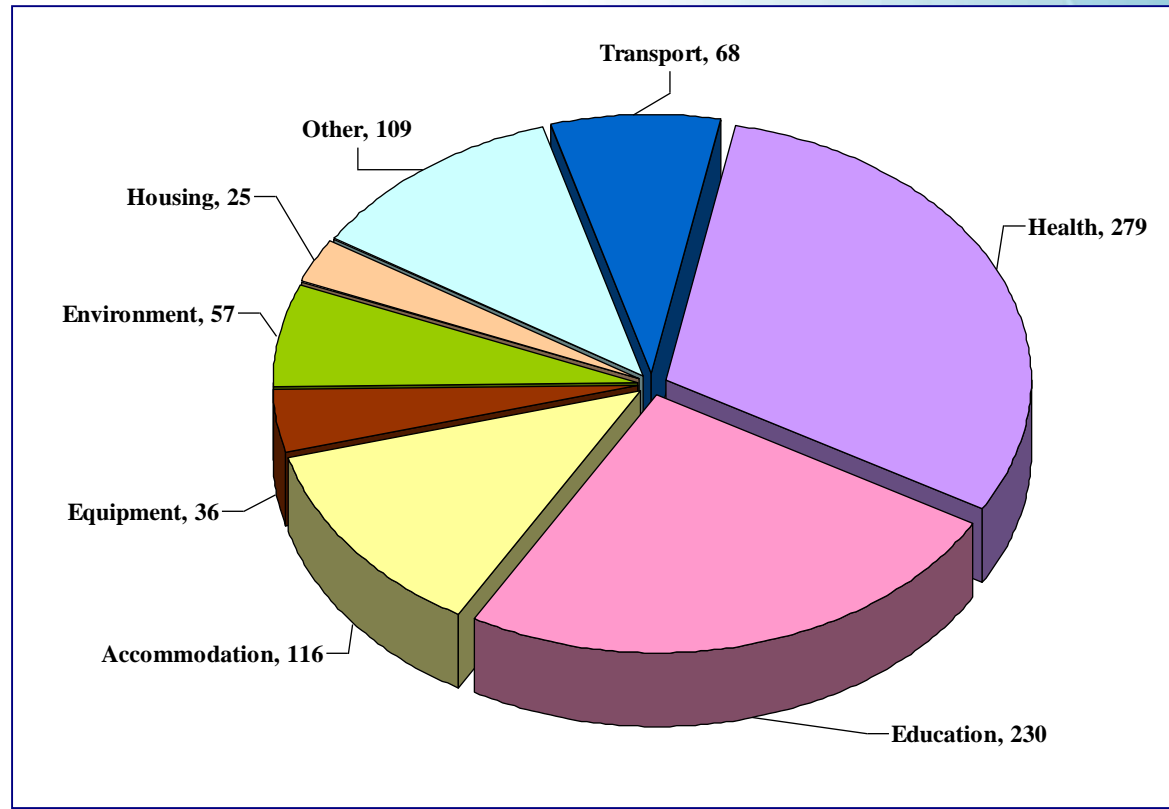

Signed PPPs by Financial Year

Source: PUK Projects Database

Distribution of PPP Projects

Total number : 920 of which 702 operational

Total capital value: €87bn

Source: PUK Projects Database

Identifying Drivers

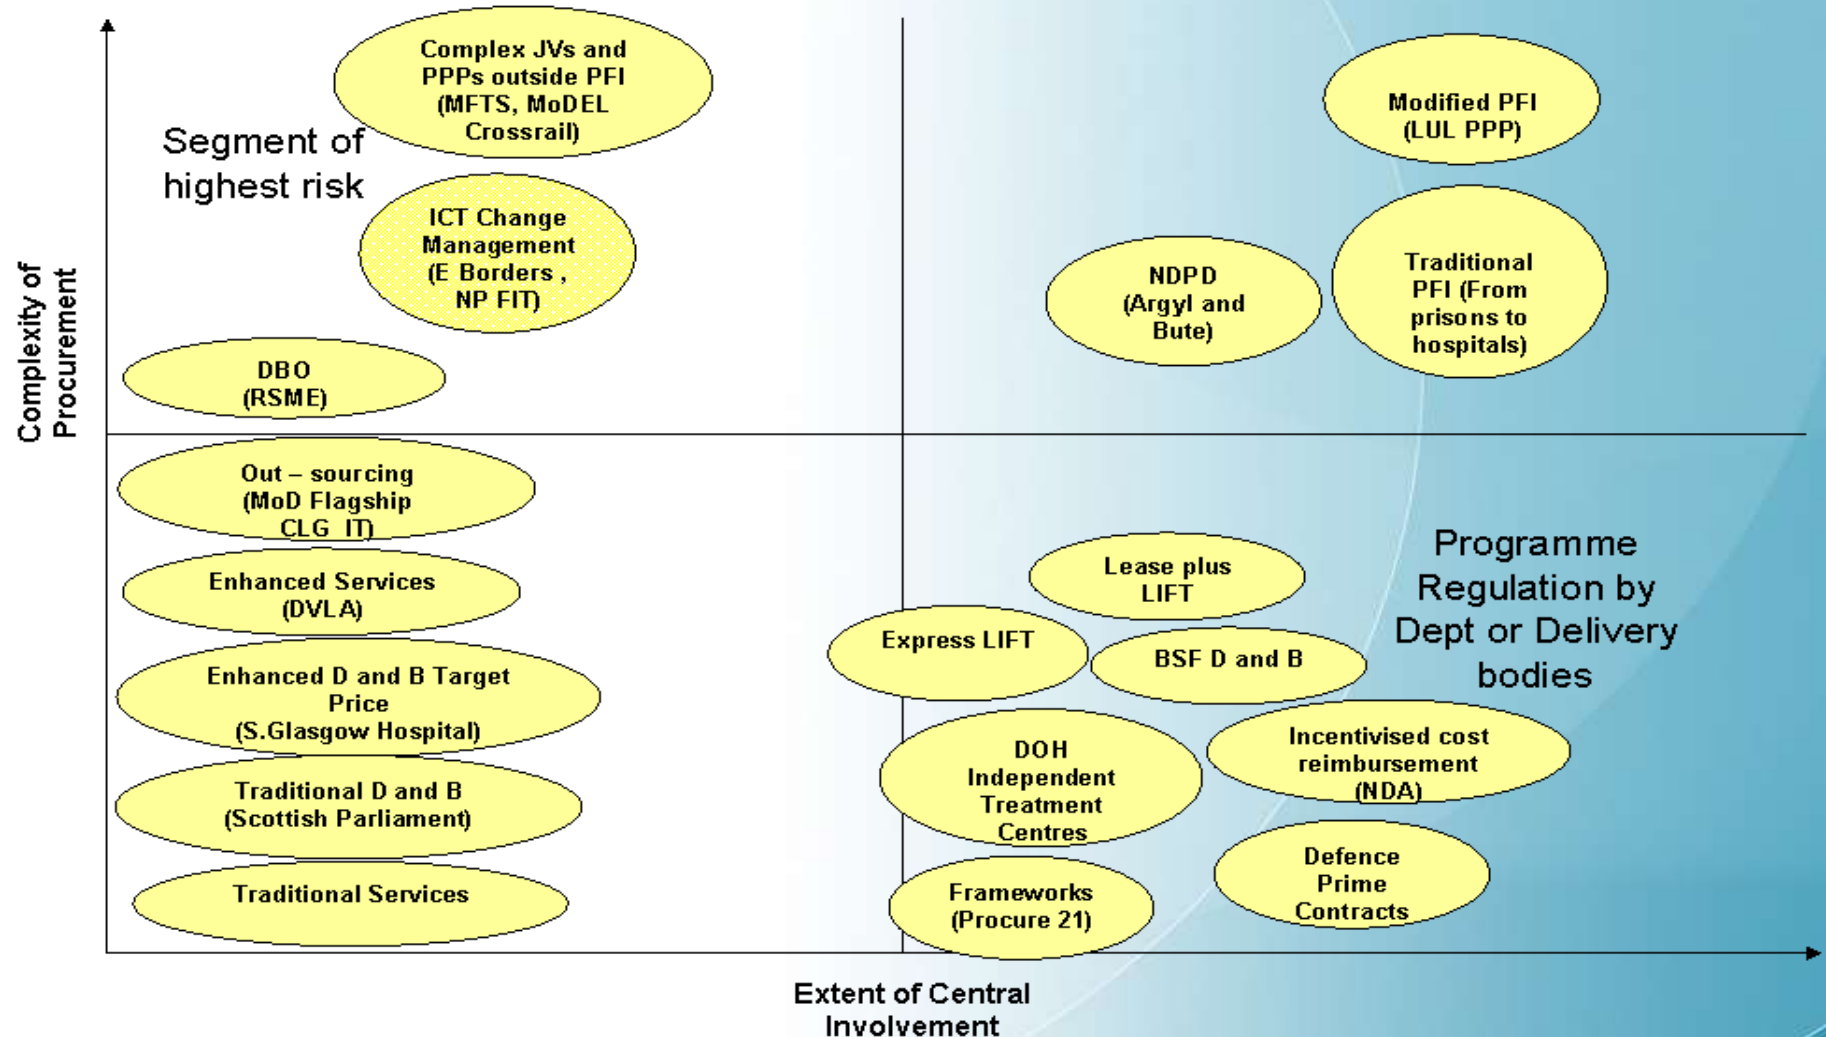

- Value-for-money procurement
- Antidote to short-termism
 - Decision making
 - Design and construction
 - Maintenance
- Contestability
- Supply side issues
- Budget constraints

Brentside School, London

Wide Range of Procurement Models

Analysis of the System

- No law
- Standardization of contracts
- Guidance – e.g. 5 case model, Green Book, value for money, contract management
- Quality control gates/assurance
- Specialist PPP units
- Programmes and programme delivery units
- Post-facto evaluation

British Embassy, Berlin

Advantages, Disadvantages and Risks

- Selection
- Sector
- Size
- Stability of requirement
- Scrutiny
- Supply
- Sub-contractors
- Supervision
- Sustainability
- Services

West Middlesex Hospital, London

Partnerships UK → Infrastructure UK

- Focus on long-term infrastructure needs of the UK
- Identify and address key cross-cutting issues.
- Support HM Treasury in prioritising investment in infrastructure
- Identify and attract new sources of private sector investment
- Commercial expertise to support major projects and programmes.
- Build stronger infrastructure delivery capability across government.
